

3520/ 3540/ 3550/ 3570 24VDC Power Supplies Line

Used to provide necessary power requirements to all SARGENT electromechanical and access control locks. The 3520, 3540, 3550 and 3570 Series are 24VDC Regulated Power Supplies. These power supplies are recommended when using a SARGENT system.

Features and Benefits

- UL Class 2 Listed
- Four models available: 1, 2, 4 or 6 Amps
- Integral battery charging capability keeps sealed lead acid gel/cell at full charge in case of line voltage failure
- Fused line voltage input with one, four, or eight DC outputs (depending on model)
- Each circuit can be individually turned on & off via a slide switch and the power status of each is shown by an LED
- In the event of a DC short problem is confined to the zone of difficulty
- Fire alarm interface standard

SARGENT MODEL No.

- 3520 24V - 1 AMP POWER SUPPLY
- 3540 24V - 2 AMP POWER SUPPLY
- 3550 24V - 4 AMP POWER SUPPLY
- 3570 24V - 6 AMP POWER SUPPLY
- 738 - 24V - 5 AMP HOUR BACKUP BATTERY
